FOR A CAP-AND-TRADE
FUNDING SUMMIT

**INTEGRATED NEW ENERGY SOLUTIONS FOR SUSTAINABLE COMMUNITIES
SINCE 2014, \$2 BILLION HAS BEEN DISTRIBUTED BY STATE AGENCIES
FOR PROJECTS STATEWIDE THAT HAVE BEEN COMPLETED OR UNDER WAY**

Our summit brings together an influential group of advanced energy leaders, state policy-makers and finance specialists to discuss advanced energy trends and policy, funding from the California Climate Investment Program and ways to put those dollars to work in the San Francisco Bay Area

*The San Francisco Bay Area includes the counties of:
Alameda, Contra Costa, Marin, Napa, San Francisco, San Mateo, Santa Clara, Solano, and Sonoma*

The Summit will tackle such questions as:

- ◆ How can communities apply for state Cap-and-Trade funding opportunities to reduce greenhouse gas emissions while strengthening local economies?
- ◆ How will advanced energy technologies support an evolving grid?
- ◆ What will it take to accelerate the use of clean modes of transportation, such as electric buses, heavy-duty trucks and vehicles?
- ◆ How can California prepare to meet the workforce needs of the advanced energy economy?
